5th Work report
(November 23rd to December 22nd , 2021)
on the construction of one building holding 3 classrooms, office, storage room and toilets
for the public elementary school of Gbodjoko
Administrative District of Zinvié
Municipality of Abomey-Calavi
Republic of Benin

After the bricklayers finished the work on the construction site at the primary school of Gbodjoko, we allowed the plaster on the building and the toilet dry in order for the colors to hold well. Then, on November 23rd, the painters arrived.

They immediately start rubbing the walls smooth and prepare the paint mixtures.

And soon the appearance of the building changes:

The first coat -

it's slowly getting colorful -

almost finished -

the logos are painted.

Christmas greetings from Gbodjoko

From the bottom of my heart I would like to thank the generous donor, who contributed the 25% share to this building via the NPO Fly & Help, in order that the Federal Ministry for Economic Cooperation and Development could add the remaining 75%. I would like to thank all the employees of the ministry and the NPO Fly & Help, the members of our two NPOs, Bildungswerk Westafrika e.V. and Actions de Solidarité. I also thank the people of Gbodjoko for the time together.

For the New Year I wish everyone lots of blessings, health, happiness and love, and for myself I wish that you all stay by my side.

Sincerely
Astrid Toda
