Speech by the Deputy Mayor

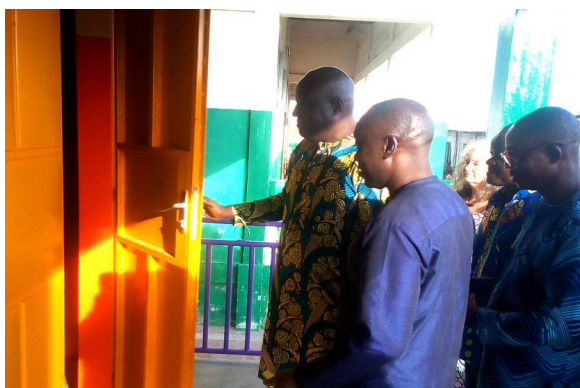

Handover of the keys

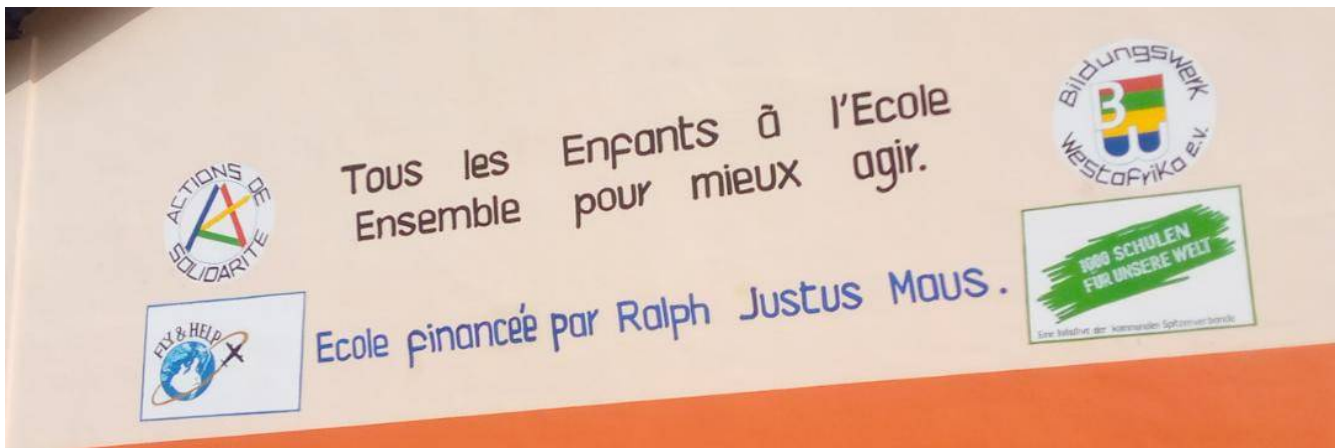

and

ribbon cutting

We thank Mr. Maus from the bottom of our hearts for making this project possible with his generous donation. We also thank the association "Fly and Help", the employees of the Federal Ministry for Economic Cooperation and Development and the members of the Bildungswerk Westafrika e.V. I would like to thank our construction team and all friends who either lent a hand on the construction site or accompanied our work from afar. I'm curious if the children of this school will be able to keep their promise and that really all of them will pass the primary school final exams. I wish them the best of luck and a lot of success!!!

Kind regards  
Astrid Toda
