

**Opening ceremony
of the new buildings for the secondary school of Adjagbo
Municipality of Abomey-Calavi
May 31st, 2024**

The new buildings

Despite the rain, many people came to the opening ceremony.
The students welcomed us with a dance.

Then festive speeches were held

First by the student representative

then by the principal

and the Director of the School Inspectorate

by the chairman of our NPO

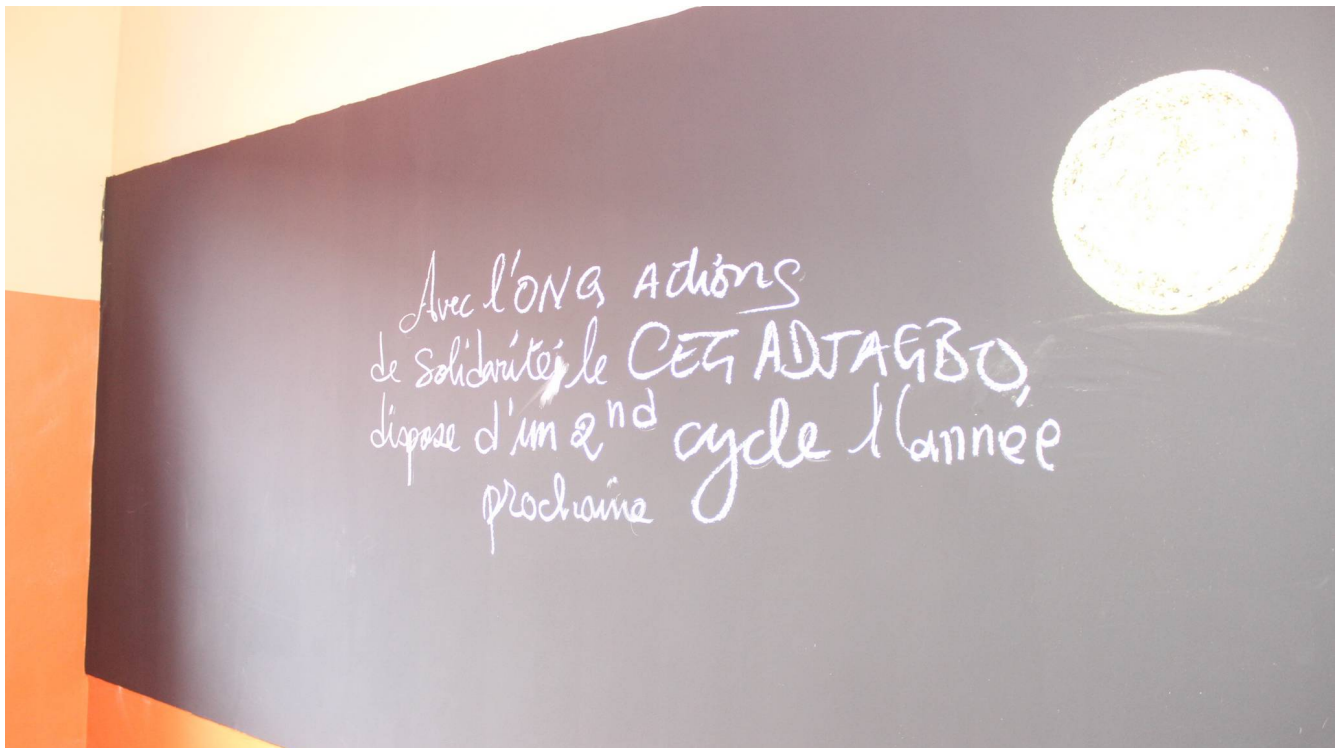

and the representative of the mayor

The keys were then handed over to the new owners.

The ribbon cutting opened the doors of the buildings and all visitors were given access to the new classrooms.

The director of the school inspectorate promises the secondary school the permission to open the senior school level.

The toilets were also inspected.

At the end, the director and the teaching staff invited us to a meal in the spirit of our awareness campaign “Let’s buy local”.

We would like to thank the students of the Adjagbo Secondary School for their smiles, their conversations and the friendly atmosphere. We also thank the principal and the

teaching staff for their support during the construction work. And I want to express my sincere thanks to our two construction teams. Without their commitment, our projects would not be possible.

I send a huge THANK YOU to our supporters in Germany and to the employees of the BMZ.

We all wish the students of this secondary school much success and are happy that they can now stay at this school until they graduate.

From my heart

Astrid Toda
