Inan Ilou,
queen mother of Sokponta

This study hall was already besieged by the students of the high school, which is located in the neighborhood, before its official opening ceremony. This is proof of how urgently this study hall was needed in Sokponta. We wish the students all success possible. But we also hope that many adult people will come to the center to take a book for the joy of reading.

I thank all friends and supporters who have accompanied us through this project. I accepted the award that I received in Sokponta on behalf of all of you.

The Inan Ilou is an Amazon who is committed to her conviction. And this is what we all are, everyone in his own place. Our schools emerge as the overall result.

Thank you from the bottom of my heart !!
